

BIO Break (6-10 years at the College)

Date: Tuesday, March 13, 2018

Time: 2:00-3:00 p.m.

Place: 'Ilima 202A

What could be improved at Kapi'olani CC?

- It is good for the campus community to do activities together. An example was the Kukui planting and weeding.
- HR quarterly training is helpful. Training from the business office is needed.
- Participating in events such as UHCC Civil Service/APT Professional Development day is really important for staff.
- We need to remember that we are here for the students. Taking a class helps you remember the students' perspective.
- Are there UH policies on keeping individuals safe on campus? Each campus has the same student conduct code. All campuses have the same kind of procedures. There was an active shooter drill on the campus a couple of years ago. The advice is to run, hide, fight. It's impossible to predict what can happen especially on an open campus.
- Employees should be involved in an activity outside of their job. Are there other things we can do to engage faculty and staff? There are many opportunities but scheduling is difficult.
- There is a need for more nursing faculty but it is hard to hire.
